• Objective

With a strong foundation in data analytics, experience includes developing interactive dashboards that improved inventory management and customer satisfaction. Achievements include a 9.14 CGPA in M Pharm and 65.35% in B Pharm. Projects led to enhanced decision-making capabilities and operational efficiency. Certified in Data Analytics and Python with Gold honors, alongside SQL certifications. Proficient in Excel, Power BI, Python (NumPy, Pandas), and PostgreSQL, demonstrating a commitment to leveraging data for business intelligence.

• Experience

Jan 2024 – Til date – Skillovilla, Data analyst

- Developed strong analytical skills by working on complex datasets and deriving actionable insights.
- Gained proficiency in advanced SQL for querying, data manipulation, and performance optimization.
- Mastered advanced Excel techniques, including data modeling, automation, and financial analysis.
- Built interactive dashboards and reports using Power BI and performed data analysis with Python.

Feb 2023 - Jan 2024 - Associate Pharmacovigilance, Elanco

- Managed case processing efficiently, ensuring accurate allocation of cases using Excel files.
- Worked with cases from various countries, maintaining smooth workflow and data organization.
- Utilized Power BI for reporting, creating interactive dashboards and visualizing key metrics.
- Leveraged Excel for tracking, analysis, and data management to optimize case handling.

• Technical Expertise

- **Excel:** Advanced formulas, PivotTables, VLOOKUP/HLOOKUP, data cleaning, and automation.
- **Power BI:** Dashboard creation, DAX functions, data modeling, and interactive reporting.
- **SQL:** Complex queries, joins, subqueries, performance tuning, and database management.
- **Python:** Data manipulation (Pandas, NumPy), visualization (Matplotlib), and automation.

• Projects

Cricket Dashboard Project

- Situation: Developed a dashboard to visualize cricket tournament data for enhanced insights.
- Task: Create an interactive dashboard with real-time updates and segmentation of tournament stages.
- Action: Utilized Power BI for visualization and Python for data preprocessing, implementing dynamic filters.
- Result: Delivered an engaging dashboard that improved data accessibility and informed decision-making for stakeholders.

Airline Database Project

- Situation: Required to extract and analyze data from an airline database to support operational decision-making.
- Task: Write SQL queries to retrieve specific information regarding flight schedules, passenger bookings, and ticket sales.
- Action: Developed complex SQL queries, including joins and aggregations, to answer various business questions and produce detailed reports.
- Result: Improved data retrieval efficiency, enabling the team to make informed decisions based on accurate and timely information.

• Certification

- Certified in **Data Analytics and Python** with Gold honors from SkilloVilla.
- Certified in **SQL and Python** from HackerRank.

• Academics

❖ **2022** **Pes University, Bengaluru**
M.Pharm (Pharmaceutics)
9.14

❖ **2016** **GM Halamma PU College, Davangere**
Class 12
82.83%

❖ **2020** **KLE College of Pharmacy, Hubli**
B.Pharm
65.35%

❖ **2014** **KGM High School, Shigli**
Class 10
85.12%
